CAPT. RICK MURPHY PARTNERS WITH THE QMAXX PRODUCTS GROUP To Help Florida Combat Rust and Corrosion

*Miami, FL—February 16, 2017—*Capt. Rick Murphy—host of *Chevy Florida Insider Fishing Report* (<http://ChevyFloridaInsiderFishingReport.com>) joins QMaxx Products Group (<http://www.qmaxxproducts.com>) in the fight to prevent rust and corrosion.

“Everyone who lives in Florida understands the problem of rust and corrosion,” says Murphy. “Between our saltwater coastal areas, vast bodies of freshwater and average humidity levels in the 70s across the state, we’re fighting an ongoing battle against rust and corrosion damage. But QMaxx products are helping boaters, anglers and all Floridians protect their motors, metal fittings, fishing gear, trailers and vehicles. QMaxx SALT and FRESH are must-haves in your boat, tackle box, around the house and on the job.”

QMaxx Is a Game Changer

“Fighting rust and corrosion,” explains QMaxx CEO David McCreery, “traditionally has meant cleaning up the damage, repairing metal surfaces and replacing parts. But with our patented technology, QMaxx stops rust and corrosion before they get started.”

QMaxx is a proactive, preventative solution to rust and corrosion—a distinction that makes QMaxx a true game changer. “And who better to explain the power of QMaxx to sportsmen and women in Florida than Rick Murphy, a licensed captain, top angler and respected spokesmen for the sport in Florida,” says QMaxx president Craig Hiddleston. “And what better place to make our announcement than the Miami Boat Show.”

Why QMaxx is Different

Unlike other oils and lubricants, QMaxx has a specific gravity heavier than water. Water doesn't just bead up off surfaces; it's displaced. QMaxx literally pushes water away from surfaces and forms a superior protective barrier by bonding with metal at a molecular level.

There's NO oily or tacky residue. NO silicone. And NEVER a waxy buildup. Just a highly durable protective barrier that lasts longer than competitive products. In fact, the more you use QMaxx the better the protection.

QMaxx products are available in formulations designed to meet the widest range of applications and extreme environmental conditions. Plus, QMaxx products are available in multiple delivery mechanisms: aerosol, pump and trigger-spray bottles, pre-treated wipes and lube pens.

From the Gulf coast to the Atlantic, the Intracoastal Waterway to the Keys, QMaxx products do more than protect against rust and corrosion; they:

- Help clean surfaces of existing superficial rust and corrosion,
- Penetrate deep to loosen rust-frozen tools and parts,
- Lubricate metal parts and equipment without silicone,
- Leave surfaces dry to the touch—won't attract the dirt, sand and grit that cause extra wear and tear, and
- Perform under the most extreme environmental conditions.

About Capt. Rick Murphy

Rick Murphy has been hunting and fishing across Florida his whole life. He's one of only two fishing guides to win the three-event Keys Tarpon fly-fishing series: The Golden Fly, The Don Hawley and The Gold Cup. He is also the all-time winningest saltwater tournament angler in the United States.

Murphy shares his expertise and love of fishing with other outdoor enthusiasts through his television, radio and online media outlets. With the support of his Emmy award-winning team, Murphy has hosted *Sportsman's Adventures* for more than 20 years, including more recently the *Sportsman's Tournament Adventures*. And he is one of the hosts on the *Chevy Florida Fishing Report*.
